6. Fatwood – If only all of life was as simple and easy as using Fatwood to start a fire. All you need is one light, two sticks, three steps and you're in business. No matter if it is a campfire, fireplace, BBQ, chiminea, pellet or wood stove fatwood will get a fire going in no time. Fatwood fire starters consist of two parts: pinewood and the resin created in that very tree. It is 100% all-natural. As the tree matures, this natural resin moves downward, collecting in the stump. Fatwood is available in quantities ranging from 4lb up to 15lbs.

7. Color Cones - Our Color Cones make a unique gift for the holidays! This bag contains 2 1/2 pounds of Color Cones for a beautiful show of colors to add warmth to the holidays and relaxing nights in front of your fireplace. When these cones are tossed into the fire they produce magical blue and green flames to delight young and old alike. This package contains a mixture of different species of pinecones; Pinion, Loblolly, Douglas fir, and sand pine. Color cones should only be used in wood fires including wood burning fireplaces and campfires. They should not be used in gas log fireplaces. A well-established fire will completely burn the cones and leave no residue.
