

Did you know that your fireplace could be costing you more money than it's saving you? Are you looking to save hundreds of dollars in lost energy costs each year? Did you know that the average homeowner spends about \$400 annually in wasted energy because of air leaks into and out of the home thru a fireplace flue? I am Melissa from NorthlineExpress and in this video I will introduce you to the Chimney Balloon Draft Eliminator, an affordable solution to a familiar problem. Who is not interested in saving on energy costs, especially when it is so easy!

This is the [Chimney Balloon Draft Eliminator](#) and this easy to use draft eliminator provides a double layer of air padded insulation for your fireplace, which can save you up to 30% in lost energy! It does this by sealing off the chimney saving you money all year by keeping the warm or cool air in your home rather than letting it escape out your chimney and you having to spend more to re cool or heat the air in your home.

The Chimney Balloon Draft Eliminator will help cut your energy costs but it also provide other benefits like; stopping uncomfortable chimney downdrafts from entering your home and sealing your fireplace so that rodents, birds, and insects cannot enter.

It is made of durable 3-Poly plastic and is durable to be used all year round or used only in the off season year after year. The Chimney Balloon Draft Eliminator stops this heat loss by acting as a plug. By inserting the Chimney Balloon Draft Eliminator you seal the opening and insulate it with air which is one of the best types of insulation available. Each Draft Eliminator comes with a 10" valve handle and an attachable 25" flex tube for inflation. And the installation is very simple you will place the balloon up into the flue and then inflate it by blowing it up like you would a balloon. There is no need to hire a professional or get out any tools. The chimney balloon really is a great product for any DIY home owner that is looking to save on energy costs!

There are 3 basic types of chimneys Straight chimneys, chimneys with a smoke chamber, and chimneys with a smoke shelf and the chimney balloon will work for all three chimney types. You will need to make sure that you are choosing the right size chimney draft eliminator and need to remember that the actual size of the Chimney Balloon Draft Eliminator does not reflect on the size of your chimney. Sizing for a Chimney balloon is quick and easy and I would like to refer you to our help article '[Chimney Balloon Draft Eliminator Sizing](#)' so you can properly follow the sizing instructions before ordering.

I hope that you have found this information helpful. If you have questions about the Chimney Balloon Draft Eliminator please give us a call at 866-667-8454. At NorthlineExpress, home of the buy and try satisfaction guarantee, we're always happy to help!
