

Are you the type that loves to spend time lounging on a deck, partying on the patio, or just being outdoors in general? Do you feel forced to put off entertaining or even enjoying your patio because the weather is just still to chilly? I'm Melissa from NorthlineExpress and in this video I will explain why there is no need to wait until the weather warms up, thanks to [patio heaters](#).

Patio heaters allow you to make the most of the chilly spring and summer evenings with the last few years unwinding the trend of outdoor entertaining even in the winter. Patio heaters are not designed to create or maintain specific temperatures outdoors but too take the edge off, like a campfire would. You will need to be near the patio heater to feel the warmth but the style will determine the size of the area that you will feel the heat in.

Patio heaters are available in two main types' [gas](#) models and [electric](#) models. When it comes to the style of the patio heater you will have many more options to choose from. Patio heaters can be table top, wall mounted, free standing, or hanging. Traditional Dome style free standing and table top heaters are going to be the most common and they will radiate heat in all directions around the unit. Hanging or wall mounted units are usually more directional, heating only in the direction that they are facing.

A patio heater will prove handy in several situations throughout the year, the most beneficial is allowing you extend the time you can enjoy your outdoor space, without being chased back inside because it's just too chilly!

Remember investing in a patio heater is only going to enhance your outdoor lifestyle. If you're into breathing more fresh air, enjoying your coffee on the deck, gatherings on the patio, or gazing at the night stars you might as well stay cozy while you're doing it!

If you have questions about patio heaters and which one is best for you give us a call at 866-667-8454. At NorthlineExpress, home of the buy and try satisfaction guarantee, we're always happy to help.
