

Are mosquitoes preventing you from spending time outdoors? Mosquitoes are a buzz kill at any outdoor event but that doesn't mean that there is nothing that you can do about them. I'm Melissa from NorthlineExpress and today I will share with you how [DynaTrap Mosquito Traps](#) can give you back your outdoor space and tell you about a special offer.

DynaTrap Mosquito Traps offers a 3-way protection plan for biting insect elimination. First, UV fluorescent bulbs produce warm light to attract insects to the trap. Second, an exclusive coating of titanium dioxide inside the DynaTrap produces carbon dioxide, which is irresistible to mosquitoes. Third, the insects are lured to the powerful vacuum fan, where they are collected and trapped into the retaining cage away from the area of usage providing comfortable living quarters.

There are a variety of DynaTrap models to choose from so you're sure to find one that will suit your situation. They even offer models that are for use indoors. Depending on the model that you choose these traps will provide up to an acre of coverage, which is just right for most outdoor areas. The DynaTrap can attract and capture mosquitoes both in bright and dark outdoors and indoors, and is designed to run 24/7.

Mosquitoes and other flying insects react extremely sensitively to certain wavelength of ultraviolet rays so these traps are super effective thanks to the UV bulbs. The UV bulbs are made of the highest quality and designed to last approximately 3000 hours which is about 4 months.

DynaTrap mosquito traps are perfect if you are looking for a trap that does not require a lot of [accessories](#). With the DynaTrap, you simply hang the unit and plug it in. The unit creates its own attractant for mosquitoes and other biting insects so there is no expensive bait to buy in order for the trap to work. There are also units that are small enough to be portable so you could take them along to your campsite and enjoy the protection power of DynaTrap away from home.

Right now is definitely the time to purchase a DynaTrap Mosquito Trap; through July 10<sup>th</sup> you will receive a free set of replacement [UV bulbs](#) for your unit. The bulbs are long lasting so you'll have a head start for next season or an extra set on hand so you're never forced to be without the protection that your DynaTrap will provide! This promotion is only for a limited time and can only be found at [NorthlineExpress.com](http://NorthlineExpress.com), home of the "Buy and Try" Satisfaction Guarantee.
