

If you've been looking to get a ThermaCell Mosquito Repellent Appliance right now is the perfect time. I'm Melissa from NorthlineExpress here to tell you how you can earn up to a \$30 rebate on your ThermaCell purchase!

If you have used a [ThermaCell](#) product or know someone who has then you have probably heard them rave about how fantastic they are. I personally use them and think that they are one of the best mosquito repellents that I have tried yet. They are light weight and compact and powered by butane. They also give you choices you can get a handheld unit or a lantern unit and they are both powered by the same butane cartridge and use the same repellent pads. Each device is going to provide a 225 sq. ft. area of protection within minutes of turning the unit on.

The repellent pads use allethrin, a copy of a naturally occurring repellent found in chrysanthemum flowers, and provide up to 4 hours of protection. Each unit will include 3 repellent pads. They will also include 1 butane cartridge that will last up to 12 hours. You can turn your unit on and off so you are not using your pads or butane up when you do not need it. The pads can be reused as well but keep them in a zip lock bag to preserve them.

Right now if you purchase a ThermaCell appliance you will be eligible for up to a \$30 rebate by mail. If you purchase any of the [handheld](#) devices or [lanterns](#) you will get a \$5 rebate. If you purchase one of the [torches](#) you will also get a \$5 rebate, 2 of the torches will get you a \$15 rebate, and 3 of the torches will get you a \$30 rebate.

Using a ThermaCell is like hanging out the do not disturb sign for pests at your outdoor events. And with the variety that they offer you are sure to find one that's right for you whether you're on the go or chilling on the patio. This ThermaCell rebate offer is another great promotion from NorthlineExpress, home of the "Buy and Try" satisfaction guarantee.
