

Hi, I'm Melissa from Northland Express. Here to introduce you to a product from AllClear Terminix's Natural Solution line and that is the Table Top Mosquito Repeller.

This is a great way for you to, naturally and pesticide free, repel mosquitos for a 15 by 15 foot area up to eighteen hours per refill and it's really simple to use. Take it out of the box, put the batteries that are included with it in it and simply set it in place and turn it on and you're going to start immediately enjoying that mosquito repelling action.

And there's a fresh botanical scent that going to let you know it's working, as well. The unit's going to come with one refill to get you started but make sure that you're getting extra refills in a two or four pack so, wherever you go, you can take that mosquito control with you. This Table Top, AllClear Mosquito Repeller is great to take with you while you are going camping, using it on your patio like I'm doing here today.

Take it with you when you go on your boat. Anywhere you could pretty much set it and it's going to stay. It's going to be effective. It's another great product from Northland Express, helping you keep your outdoor living space livable and mosquito free and, don't forget, we're also home of the Buy and Try, Satisfaction Guarantee.
